SEG SPOTLIGHT

SELECT EMPLOYER GROUPS - The Pulse of Denali Alaskan

Denali Alaskan has selected Chugach Electric Association as our First Quarter 2013 featured SEG due to its long-standing relationship with the Credit Union.

Members and employees of Chugach are eligible for membership in Denali Alaskan. Chugach serves 67,000 members at 82,000 metered locations from the Anchorage Bowl to the northern Kenai Peninsula and from Whittier to Tyonek. Homer Electric Association, Matanuska Electric Association and the City of Seward are wholesale members of Chugach – with additional sales to Golden Valley Electric Association in the Interior.

After rapid growth during World War II, Anchorage decided it could no longer provide service outside city limits. In response, neighbors in surrounding areas came together to form an electric cooperative and incorporate Chugach in March 1948. Chugach grew to become Alaska's largest electric utility.

Today Chugach provides reliable electric service across more than 2,200 miles of energized line from a clean, efficient generation portfolio that is 88 percent gas-fired, 10 percent hydro and 2 percent wind.
